

Read Me — AI in Action: Implementation Bundle

Welcome

Thanks for grabbing the AI in Action Implementation Bundle! This bundle was designed to help you put the strategies from the Over-the-Shoulder Video Series: How I Use AI in My Business into action — step by step. If you already own the video series, this bundle is the perfect companion to help you follow along, stay organized, and apply what you learn. (If you don't have the video series yet, you can still use the tools inside — but you'll get the best results when paired with the videos.)

What's Included

1. Prompt Kit (PDF)

This guide includes 40 beginner-friendly prompts — 20 for ChatGPT and 20 for Google Gemini — that you can copy, paste, and use right away. You'll find prompts for everyday writing, emails, content ideas, and image creation. Use this as your quick reference when you're stuck, brainstorming, or want to speed up your workflow. Tip: Don't overthink it. Start by copying one prompt exactly as written, try it in ChatGPT or Gemini, and tweak it to fit your tone or project.

2. Worksheet (Fillable or Printable)

This guided worksheet helps you organize, plan, and implement what's covered in the 3-part video series. Each section aligns with a video and includes space to capture your prompts, examples, and next steps — making it easy to apply what you've learned immediately. You can print it or fill it out digitally, depending on your preference. Tip: Use one worksheet per project or workflow. Over time, you'll have a personal AI playbook tailored to how you work best.

How to Get the Most Out of This Bundle

1. Pair it with the videos. The worksheet and prompt kit follow the same structure as the AI in Action series.
2. Start small. Pick one simple task — like writing an email or creating an image — and try one prompt from the kit.
3. Make it your own. Adjust the prompts to match your brand, tone, or niche.
4. Track what works. Record your favorite results in the worksheet so you can refine and reuse them later.

Need Help?

If you need help using the materials or have questions about the full video series, just reach out — I'm happy to help. Website: <https://websitesbysarah.com> Support Email: [your support email if you'd like it listed]

Final Tip

This bundle was created to help you implement, not just learn. Use it to simplify your workflow, get creative with AI, and start seeing results — one small step at a time.
